

# Priya Visits MuSo

Illustrations for a child's journey through Museum Of Solutions

---

Project Duration :  
2 weeks, January 2020

Client :  
Museum of Solutions, JSW

Role on the team :  
Illustration

## My Role

MuSo is a community-led initiative for the children of Mumbai and it is the first of its kind in India. Since the building and structure is work in progress it can get difficult to communicate the idea without visuals. For this purpose we created an illustrative narrative from the point of view of a child. I was responsible for illustrating these journeys. I also took part in writing sections of the narrative.
